RE: Group IV Sampling Event, US Naval Station (NAVSTA), Mayport, Florida

Dear Ms. Wilson:

I have reviewed the above document dated March 18, 1999 (received March 22, 1999) and we discussed it at the Partnering meeting last week. The purpose of the document is to furnish additional information based on evaluation of samples using the criteria in Chapter 62-777, F.A.C. and to serve as a data transfer in order for the contractor, TetraTech NUS, to finish the work on this group of SWMUs, work which was not completed under a previous work plan. The document is acceptable for its intent.

If you need further clarification or any additional information, please feel free to contact me at 850-921-4230.

Sincerely,

James H. Cason, P.G.
Remedial Project Manager
