RE: Annual Monitoring Report for Solid Waste Management Units 6 and 7; U.S. Naval Station Mayport, Florida

Dear Ms. Wilson:

I have reviewed the above document dated May 3, 2001 (received May 4, 2001). The document recommends that Tetra Tech should review all existing data from the site and prepare a memo with recommendations for the Navy and the Partnering Team. Since it appears that the bioslurper at the site has accomplished as much as it can, I concur with that recommendation.

If you need further clarification or any additional information, please feel free to contact me at 850-921-4230.

Sincerely,

James H. Cason, P.G.
Remedial Project Manager
