RE: Work Plan Addendum 4, Excavation of Arsenic-Contaminated Soil at SWMU 5 and
Monitoring Well Abandonment at Various Solid Waste Management Units, Revision 00,
Naval Station Mayport, Mayport, Florida

Dear Ms. Wilson:

I have reviewed the above document dated May 2001 (received May 25, 2001). We also discussed the document at the Partnering meeting earlier this week. The document describes soil excavation activities required to bring the SWMU 5 within the non-residential land use scenario, based on arsenic concentrations in surface soil. The document is acceptable.

If you need further clarification or any additional information, please feel free to contact me at 850-921-4230.

Sincerely,

James H. Cason, P.G.
Remedial Project Manager
