RE: Draft Treatability Study: Solid Waste Management Units 6 and 7 at Naval Station,  
Mayport, Florida

Dear Ms. Wilson:

I have reviewed the above document dated September 2002 (received September 17, 2002). The document describes a program for collecting Natural Attenuation parameters for groundwater, free product recovery testing using passive skimmers and soil sample collection for submission to independent in-situ bioremediation vendors for evaluation. The document is acceptable.

I appreciate the opportunity to review this document in the context of the Partnering meeting and I look forward to future progress at the site with the cooperation of the Partnering Team in January. If you need further clarification or any additional information, please contact me at 850-245-8999.

Sincerely,

James H. Cason, P.G.  
Remedial Project Manager

CC: Cheryl Mitchell, Mayport Naval Station  
Craig Benedikt, EPA Region IV, Atlanta
