RE: RCRA Facility Investigation Addendum for Solid Waste Management Units 47, 53 and 55, Naval Station Mayport, Mayport, Florida

Dear Ms. Wilson:

This letter is to formalize our decision made during our Partnering teleconference of January 5, 2005 and my review of the above document dated December 16, 2004 (received December 16, 2004). The document describes the investigation results for possible additional soil delineation of SWMU 47, the Oily Wastewater Conveyance System, SWMU 53, the Sewer Pipeline System and SWMU 55, the Storm Sewer System. The investigation noted that additional delineation is not necessary. Based on our conversations during our Partnering teleconference on January 5, 2005, I concur.

Thank you for the opportunity to review this document. If you require further clarification or other assistance, please contact me at 850-245-8999.

Sincerely,

James H. Cason, P.G.
Remedial Program Manager
