RE: RCRA Facility Investigation Work Plan, Solid Waste Management Units 8, 9, and 51, Naval Station MAYPORT, Mayport, Florida (Tetra Tech NUS, Inc., October 2006)

Dear Mr. Syme:

I have reviewed the subject document dated October 2006 (received on October 16, 2006). The purpose of this RFI Work Plan (WP) was to present the rationale and the specific tasks to achieve the objective of the RFI. The overall objective of the RFI at SWMUs 8, 9, and 51 was to complete the characterization of the nature and extent of soil and groundwater contamination. This RFI WP is adequate for its intent and purpose. Also, it is my understanding that this work has already been completed and that this response letter is for documenting purposes only.

Thank you for the opportunity to review this document. If you require additional clarification or other assistance, please feel free to contact me at 850/245-8999.

Sincerely,

A handwritten signature in blue ink that reads "John Winters".

John Winters, P.G.
Remedial Project Manager
