**RE: Final Site Assessment Report, Area of Concern E, Moral, Welfare, and Recreation  
Department Equipment Storage Area, Naval Station Mayport, Facility ID# 16-  
8626008, USEPA ID #FL9 170 024 260, Mayport, Florida (Tetra Tech, September 12,  
2013)**

Dear Mr. Hayworth:

I have reviewed the subject document dated September 12, 2013. The document was received on September 18, 2013. It was completed under Contract Task Order 0088.

The report states that *“The purpose of this Site Assessment is to characterize the nature and extent of contaminants associated with the AOC E site and interpret this information to determine if remediation activities are necessary based upon the potential risk to human health and the environment.”*

Based on my review of the data presented in the document, Tetra Tech has met the stated purpose of this SA and has prepared this SAR in accordance with Chapter 62-780 requirements. Also, the Department concurs with the Navy that AOC E meets the Department’s conditional site rehabilitation completion order requirements in Chapter 62-780. However, I have the following comment pertaining to the recommendations.

- Based on the data provided in the submittal, I would like to discuss the Conceptual Site Model and path forward for AOC E at our next meeting (December 3 and 4, 2013).

Final Site Assessment Report  
AOC E, Naval Station Mayport
