RE: Source Removal Report, Building 2115  
Naval Training Center Orlando  
Orlando, Florida

Dear Mr. Ugolini:

I have completed the review of the Source Removal Report (SRR) for Building 2115, Main Base, Naval Training Center, Orlando, dated September 2000 (received September 18, 2000), prepared and submitted by Tetra Tech NUS, Inc. Based upon my review, I concur with the consultant's conclusion that all petroleum impacted soil exceeding FDEP Soil Cleanup Target Levels has been removed. Site Assessment activities at this site are warranted and a Site Assessment Report should be prepared and submitted.

If I can be of any further assistance with this matter, please contact me at (850) 488-3693.

Sincerely,  
  
David P. Grabka  
Remedial Project Manager
