RE: Construction Documentation Report, Enhanced Biodegradation
IRA at Study Area 36, Naval Training Center, Orlando,
Florida

Dear Mr. Hansel:

I have completed my review of Construction Documentation Report, Enhanced Biodegradation IRA at Study Area 36, Orlando Naval Training Center, dated March 2001 (received March 26, 2001), prepared and submitted by CH2M Hill Constructors, Inc. The report adequately documents the installation of monitoring wells and injection points, the collection of baseline groundwater data and the injection of 900 gallons of vegetable oil into three zones of the surficial aquifer. The report is suitable for its intent and is accepted as final.

If I can be of any further assistance with this matter, please contact me at (850)488-3693.

Sincerely,

David P. Grabka
Remedial Project Manager
