RE: Construction Documentation Report, Enhanced Biodegradation  
IRA at Study Area 39, Naval Training Center, Orlando,  
Florida

Dear Mr. Hansel:

I have completed my review of Construction Documentation Report, Enhanced Biodegradation IRA at Study Area 39, Orlando Naval Training Center, dated March 2001 (received March 2, 2001), prepared and submitted by CH2M Hill Constructors, Inc. The report adequately documents the installation of monitoring wells and injection points, the collection of baseline groundwater data and the injection of 960 gallons of vegetable oil into two zones of the surficial aquifer. The report is suitable for its intent and is accepted as final.

If I can be of any further assistance with this matter, please contact me at (850)488-3693.

Sincerely,

David P. Grabka  
Remedial Project Manager
