RE: Final Feasibility Study, Operable Unit 2, McCoy Annex
Landfill, Orlando Naval Training Center

Dear Mrs. Nwokike:

The Department has completed its review of the Final Feasibility Study, Operable Unit 2, McCoy Annex Landfill, Orlando Naval Training Center, dated July 2003 (received August 5, 2003), prepared and submitted by Tetra Tech NUS, Inc. The document is suitable for its intent and is approved as final. I have attached a memorandum from Greg Brown, P.E., identifying his approval of the document.

If I can be of any further assistance with this matter, please contact me at (850)245-8997.

Sincerely,

David P. Grabka, P.G.
Remedial Project Manager

Memorandum

**Florida Department of
Environmental Protection**

TO: David Grabka, P.G., Remedial Project Manager,
Technical Review Section

THROUGH: Tim Bahr, P.G., Supervisor, Technical Review Section 

FROM: Greg Brown, P.E., Professional Engineer II, 
Technical Review Section

DATE: August 13, 2003

SUBJECT: Final Feasibility Study; Operable Unit 2; McCoy
Annex Landfill; NTC Orlando.

I reviewed the subject engineering report dated July 2003 (received August 5, 2003). I had reviewed a draft version of this document dated August 2001 (received August 27, 2001), and provided you minor comments in a memorandum dated November 20, 2001. The subject final Feasibility Study is adequate for its intent. It identifies a reasonable range of viable alternatives that give risk managers sufficient choices to balance performance and cost tradeoffs while achieving protectiveness of public health and the environment. Mr. Michael F. Albert, Florida Professional Engineer No. 55239, working on behalf of Tetra Tech NUS, Inc., Certificate of Authorization No. 7988, is the engineer of record for this engineering report. Please call me if you have any questions at (850) 245-8993.

Gregory M. Brown, P.E.
