RE: Draft Site Investigation Report, Study Area 55, Orlando
Naval Training Center, Orlando, Florida

Dear Mrs. Nwokike:

I have completed my review of the Draft Site Investigation Report, Study Area 55, Orlando Naval Training Center, dated November 2003 (received November 17, 2003), prepared and submitted by Tetra Tech NUS, Inc. The report appears adequate for its intent except for the missing portion discussing soil removal activities at the site. Once an Interim Remedial Action Report has been submitted, verifying that the soil removal has been completed in accordance with the proposed excavation areas shown on Figure 4-2, the Site Investigation Report can incorporate that information and be finalized.

If I can be of any further assistance with this matter, please contact me at (850) 245-8997.

Sincerely,

David P. Grabka, P.G.
Remedial Project Manager
