RE: Final Feasibility Study Addendum for Operable Unit 4, Naval Training Center  
Orlando, Florida

Dear Mr. Sanford:

I have reviewed the Final Feasibility Study Addendum for Operable Unit 4, Naval Training Center Orlando, dated August 2012 (received August 22, 2012), prepared and submitted by Tetra Tech NUS, Inc. My previous comments regarding the Feasibility Study Addendum have been adequately addressed. The document is suitable for its intent and is approved. The document adequately evaluates the addition of remedial alternative V-8 for the surficial aquifer and remedial alternatives H-1 through H-3 for the Hawthorn water bearing zone.

If you have any concerns regarding this letter, please contact me at (850) 245-8997.

Sincerely,

David P. Grabka, P.G.  
Remedial Project Manager  
Federal Programs Section  
Bureau of Waste Cleanup
