From: Commanding Officer, Naval Energy and Environmental Support Activity
To: Commander in Chief, U.S. Atlantic Fleet (N93)

Subj: Initiation of Navy Assessment and Control of Installation Pollutants
Initial Assessment Study at Puerto Rico naval activities

Ref: (a) OPNAVINST 5090.1 of 26 May 1983
(b) Marine Corps Order 6280.1 of Jan 81
(c) Navy Assessment and Control of Installation Pollutants (NACIP)
Program: Guide for Conducting an Initial Assessment Study,
NEESA 20.2-035A of Oct 82
(d) CNO ltr ser 451/391407 of 31 Mar 82

1. The Navy Assessment and Control of Installation Pollutants (NACIP) program, references (a) and (b), provides for identification, assessment, and control of environmental contamination from past storage, use, and disposal of chemicals and hazardous materials at Navy and Marine Corps activities. Details of the NACIP program are discussed in reference (c).

2. Under NACIP, the Naval Energy and Environmental Support Activity (NAVENENVSA), in coordination with an Engineering Field Division (EFD) of the Naval Facilities Engineering Command, conducts an Initial Assessment Study (IAS) to ascertain the potential for contamination of the environment. The IAS team of engineers and scientists reviews archival and activity records, interviews activity personnel, and makes an on-site inspection of the activity. If, as a result of the study, contamination is suspected, a follow-on confirmation study and corrective measures will be initiated by the cognizant EFD. If no contamination is found, no further action is required.

3. In reference (d), the Puerto Rico naval activities were designated for an IAS. NAVENENVSA is providing, by separate correspondence, details of the NACIP study and support requirements to Commander, Naval Forces Caribbean. Additional information concerning the records search, command briefing, and the on-site visit will be forwarded when scheduling is completed.

4. NAVENENVSA point of contact for this study is Wallace Eakes, 112N, AUTOVON 360-3351, FTS 799-3351, or commercial (805) 982-3351.
