ENVIRONMENTAL NEWS

RESTORATION ADVISORY BOARD

All installations in the Defense Environmental Restoration Program (DERP) are required to establish Restoration Advisory Boards (RAB) by September 30, 1994. The purpose of RAB is to act as a forum for discussion and exchange of information between the Navy, regulatory agencies, and the community on environmental topics. The Environmental Engineering Division of Public Works Department will hold a meeting on July 20, 1994 at 7:00 pm at Ceiba Community Center (near Ceiba's Middle School). At the meeting we will discuss the purpose of RAB, how you can become a member, RAB members responsibilities, and the meeting's format. Please come join us at the meeting and learn more about the restoration efforts that the Station is taking to restore and protect our environment. RAB informational package are available at the Housing Welcome Center. For more information, please contact Mrs. Madeline Rivera, Installation Restoration Program Manager, Environmental Engineering Division, Building 1205, telephone 865-4429/3155.
