August 30, 2016

Mr. Gregory Preston  
Director  
Naval Facilities Engineering Command  
BRAC Program Management Office East  
203 S. Davis Drive, Bldg. 247  
Joint Base Charleston, SC 29404

**RE: STATEMENT OF BASIS FOR SWMU #78, NAVAL ACTIVITY PUERTO RICO, CEIBA, PR**

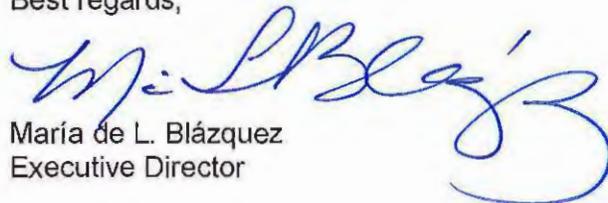

Mr. Preston:

As part of the ongoing environmental remediation and cleaning process being conducted by the U.S. NAVY in Former Naval Station Roosevelt Roads (FNSRR), the Roosevelt Roads Local Redevelopment Authority (RRLRA) is issuing this letter in response to U.S. Environmental Protection Agency (USEPA) and Puerto Rico Environmental Quality Board (PREQB) requirements, related to the statement of basis for the SWMU #78.

The RRLRA hereby acknowledges that, based on the results of the environmental evaluations performed on the data collected, no further investigation or corrective action is warranted, as there are no unacceptable human health or ecological risks associated with unrestricted use and uncontrolled exposure to soil at SWMU 78, and there are no identified impacts to groundwater from soil leaching. The RRLRA accepts the proposed remedy, no action determination, which meets all the requirements outlined by Resource Conservation and Recovery Act (RCRA) and is protective of human health and the environment; therefore, it is not necessary to evaluate potential corrective measures and land use controls are not warranted. Once the proposed no action determination is accepted, the RRLRA is in agreement with the Navy's recommendations for SWMU 78 to achieve Corrective Action Complete without controls.

For more information, contact us at (787) 274-6088.

Best regards,

María de L. Blázquez  
Executive Director
