File No. 2199.9080A(KJT)

Commanding Officer
Alameda Naval Air Station
Alameda, CA 94501

Dear Commanding Officer:

Section 13273 of the California Water Code established the solid waste assessment test (SWAT) program. A SWAT report which reliably indicates whether there is any leakage of hazardous waste from the facility must be prepared for all facilities ranked under the SWAT program. You have been notified that the Alameda NAS West Beach landfill has been placed in Rank 2. All SWAT reports for Rank 2 facilities are due to this office on July 1, 1988.

The request for the information required in the SWAT report is made pursuant to Section 13267 of the California Water Code. Note that failure to submit all the requested information may subject you to Board imposed civil liability of up to \$1000 per day of violation, pursuant to Section 13268 of the California Water Code. In addition, if hazardous waste is leaking from your facility, failure to submit the SWAT report may result in liability of up to \$5000 per day of violation.

If you have any questions regarding this letter please call Ken Theisen at (415) 464-1308.

Sincerely,

for

Roger B. James
Executive Officer
