**RE: Draft Final Remedial Investigation Work Plan IR Site 26, Western Hangar Zone,
Alameda Point**

Dear Ms. Clark:

EPA has reviewed the above referenced document prepared by Bechtel Environmental Inc and submitted by the Navy on December 6, 2001. The accompanying response to agency comments on the draft version of the document was included in the review. EPA appreciates the thorough, well thought out responses to our comments on the draft document and finds that all issues raised have been satisfactorily addressed in the draft final version. This letter therefore serves to notify you of EPA's concurrence on the work plan. We look forward to seeing the results of the investigation of Site 26.

If you have any questions, please call me at (415) 972-3029.

Sincerely,

Anna-Marie Cook
Remedial Project Manager
