Captain L.I. Williams
Commanding Officer
Naval Air Station
Alameda, CA 94501-5000

Dear Captain Williams:

**DHS COMMENTS ON THE WELL DECOMMISSIONING PLAN: 1943-1956 DISPOSAL
AREA AND WEST BEACH LANDFILL - NAS ALAMEDA**

Enclosed are the Department of Health Services (Department) comments on the above referenced work plan.

In general, the work plan is well written and organized, and the Department has only minor comments. Please respond to the comments within 30 days of receipt of this letter.

If you have any questions regarding these comments, please contact me at (415) 540-3816.

Sincerely,

A handwritten signature in cursive script, appearing to read "Mark Malinowski".

DHS Comments on the Monitor Well
Decommissioning Plan: 1943-1956 Disposal Area
and West Beach Landfill
January 24, 1991

<u>Pg</u>	<u>Sec</u>	<u>Pgph</u>	<u>Comment</u>
5	2.1	2	Title 22, is called the California Code of Regulations (CCR), not the California Administrative Code. The statement "Concentrations below the TTLIC concentrations (sic) are defined as nonhazardous." is incorrect. Either clarify or remove the statement.
9	2.2	2	Recommend the addition of Oil and Grease as components identified in the groundwater samples. DHS also recommends editing "Heavy metal concentrations...." to, Individual heavy metal concentrations were less than 1 part per million for each well sampled.
10	3.0	4	Propose an approach to verify that the fill material and Merritt sands are "hydraulically connected."
13	4.0	3	Submit the method and specifications to be used for well abandonment to the DHS for review prior to initiating work.
