ATTENTION: Bella Dizon

SUBJECT: Federal Consistency Determination for Site
Investigation at Alameda Naval Air Station
(BCDC Inquiry File No. AL.AA.6516.1)

Gentlemen:

This letter is to confirm that the Commission will not require a federal consistency determination for the two monitoring wells to be placed in the 100-foot shoreline band at Alameda NAS. As we discussed, however, any subsequent remedial action taken may directly affect the coastal zone and would require a consistency determination, pursuant to the Coastal Zone Management Act of 1972, as amended. Please continue to inform us regarding any work undertaken within this area.

If you have any questions, or I can be of further assistance, please call.

Very truly yours,

A handwritten signature in cursive script that reads "Richard L. Cooper".
