Ref: (1) WESTNAVFACENGCOM ltr 09ER3GK/L4270 of 1 Jul 94
(2) Draft Ecological Assessment of Naval Air Station Alameda dated 17 Feb 94
(3) NAS Alameda Restoration Advisory Board meeting on 2 Aug 94

1. Reference (1) submitted an amendment that contained updated semivolatile organic compound (SVOC) data for reference (2) for your review and comment. As announced at reference (3) the review period for both references (1) and (2) was extended to 15 September 1994. To date, fewer than half of the recipients of references (1) and (2) have provided comments.

2. As stated in reference (1), the Ecological Assessment report and amendment are critical to our continuing investigation and cleanup at NAS Alameda. If you have not already done so, please review these documents (references (1) and (2)) and provide written comments to the attention of Mr. George Kikugawa, Code 09ER3GK, by 2 November 1994. Facsimile transmissions can be received at (415) 244-2553. Your help in expediting these reviews is greatly appreciated.

3. A meeting is tentatively scheduled with the BRAC Closure Team and regulatory agencies on 9 November 1993 at NAS Alameda to discuss the comments received and begin scoping phase II ecological efforts. If you are available for this meeting and would like to participate please contact Mr. Kikugawa at (415) 244-2559.
