Dr. Kent Udell  
Berkeley Environmental Restoration Center  
6165 Etcheverry Hall  
University of California  
Berkeley, CA 94720

Subj: BERC DELIVERY ORDER 004: ACOUSTIC IMAGING TASK

Dear Dr. Udell:

The Berkeley Environmental Restoration Center (BERC) has requested approval of the Acoustic Imaging task in Delivery Order (DO) 004 under Contract N62474-94-D-7430. The task is limited to a survey of the sediments in the Seaplane Lagoon and offshore of the West Beach Landfill Wetlands and does not involve sampling. Approval of this task is requested prior to submittal and review of the DO 004 work plan.

BERC has submitted an Acoustic Imaging Project Plan and Safety Package for review. The Project Plan has been reviewed by EFA West and the BRAC Cleanup Team has been briefed on the project. The Safety Package is being revised based on review comments from EFA West.

EFA West is authorizing BERC to begin procurement for field work.

BERC has scheduled field work to commence July 8, 1996. Mobilization in the field cannot occur before the Safety Package has been accepted by EFA West.

If you have any questions, please contact Mr. Ken Spielman at (415) 244-2539, or FAX (415) 244-2654.

Sincerely,

**Original signed by:**

KEN SPIELMAN  
Remedial Project Manager  
By direction of  
the Commanding Officer
