Subj: REQUEST FOR COMMENTS ON THE FINAL STATUS RADIATION SURVEY AND FIELD SAMPLING WORK PLAN AND THE TECHNICAL MEMORANDUM, RADIOLOGICAL ASSESSMENT FOR RESIDUAL ACTIVITY GUIDELINES, ALAMEDA POINT, ALAMEDA, CALIFORNIA

Dear Ms Cassa:

On 16 November 1998 the Navy submitted to you the Final Status Radiation Survey and Field Sampling Work Plan. Previous review comments had been addressed and no comments were requested. The DTSC letter of 11 December 1998 indicated non-concurrence with this Work Plan and stated specific comments would be sent as soon as they are completed.

On 11 November 1998 the Navy submitted the Technical Memorandum, Radiological Assessment for Residual Activity Guidelines for your review and comment. The due date for review comments was extended to December 4th per your request.

Both of these documents provide critical requirements for the Radiological Removal Action and affect decisions being made in the field. To date, comments have not been received. Please provide any comments you may have as the fieldwork is proceeding and will utilize the documented criteria if comments are not received in a timely manner.

If you have any questions, please contact me at (650) 244-2549, Fax (650) 244-2774.

Sincerely,

ORIGINAL SIGNED BY

GEORGE KIKUGAWA
Remedial Project Manager
