**Subject: Alameda Arcview Query Station Update, Alameda Point, CA  
Basewide Project Management  
Alameda Point, California  
Contract Number N68711-00-D-0005, Delivery Order 0021**

Dear Mr. Dick:

Enclosed is the Alameda Arcview Query Station update for December 2002. This update, dated December 16, 2002 and amended December 27, 2002, contains the analytical data collected and transmitted to Tetra Tech EM Inc. since the March 6, 2001 edition of the query station. The enclosed analytical data encompasses the following sampling events: (1) Data Gap Sampling for Operable Unit 01 and Operable Unit 02 under contract task order (CTO) 386; (2) Polynuclear Aromatic Hydrocarbon (PAH) study under CTO 32; (3) Western Hangar Zone, Site 26, and Todd Shipyard, Site 28, under CTO 14; (4) Dock Zone, Site 27, under CTO 21; (4) First Quarter Groundwater Monitoring Well sampling event; (5) Skeet Range Sediment; (6) Skeet Range Grit and Shot count; (7) Seaplane Lagoon Foraging Fish; (8) Site 1 Geotechnical; and (9) Site 2 Geotechnical.

Minor corrections have been included in the December 27, 2002 amendment, which are: (1) addition of previously omitted UST analytical data (collected during UST removals and characterization); (2) addition of correct data set for PAH soil data; (3) units in "feet" added to the footer of the themes; and (4) addition of ability to save projects as "SAVE" or "SAVE AS" functions.

Please call me at (916) 853-4510 if you have any questions regarding the contents in this update or if you have procedural questions regarding the program.

Sincerely,

A handwritten signature in cursive script that reads "Chris Fennessy".

Chris Fennessy  
Project Manager
