**Subject: Alameda Arcview Query Station Update, Alameda Point, CA
Basewide Project Management
Alameda Point, Alameda
Contract Number N68711-03-D-5104, Contract Task Order 010**

Dear Mr. Lorton:

Enclosed is the Alameda Point Arcview Query Station update for 2004. This update contains the analytical data transmitted to Tetra Tech EM Inc. since the previous edition. In addition, this edition also contains revisions to existing data.

The query station now includes "removed" sample data. These samples are no longer indicative of current site conditions because the soil or sediment represented by the samples has been excavated or otherwise remediated. Removed sample data is presented in separate shapefiles from the ordinary sample data prefixed with "rem" (i.e. SVOA data for removed samples is provided in the shapefile "rem SVOA in soil.shp").

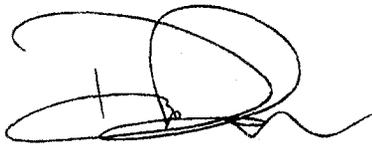

The query station update includes the following sampling events and updates:

- Seaplane Lagoon Sediment Core Chemistry and Grain Size collected in collaboration with Battelle and UC Berkeley in November 2002;
- Site 27 Grab Groundwater Samples collected by Bechtel in 2003 under CTO 21;
- Six rounds of Groundwater Monitoring Well sampling collected by Bechtel at Site 27 between March 2002 and August 2003 under CTO 21;
- Site 27 Soil Samples collected by Bechtel in 2002 under CTO 21;
- Soil Gas Samples collected by Bechtel in 2002 under CTO 21;
- Three rounds of Groundwater Monitoring Well samples collected by Bechtel at Site 28 between April 2002 and July 2002 under CTO 21;
- Site 28 Soil Samples collected by Bechtel in 2002 under CTO 21;
- PAH background assessment and PAH specific Site inspections at eight transfer Parcels collected by Bechtel under CTO 32 in 2002;
- Assessment of PAH Contamination at 19 CERCLA Sites and Parcels 28, 51, and 205 collected by Bechtel under CTO 59 in 2003;
- Fifth, Sixth, Seventh and Eight Quarter Groundwater Monitoring Well sampling events (Summer 2003, Fall 2003, Winter 2003 and Spring 2004) collected by Shaw Group under contract task orders (CTO) 78 and 103;

- Replacement data for previous results resubmitted for Second, Third, and Fourth Quarter Groundwater Monitoring Well sampling events (Fall 2002, Winter 2003, and Spring 2003) collected by Shaw Group under contract task orders (CTO) 78 and 103;
- Industrial Waste Treatment Plant (IWTP) 25 and 32, RCRA closure confirmation samples collected by Shaw Group in 2004 under CTO 114;
- Industrial Waste Treatment Plant (IWTP) 25 and 32, soil and groundwater sampling for RCRA closure collected by Shaw Group between 1999 and 2000;
- Site 25 & West Housing Area CERCLA time critical removal action collected by Tetra Tech FW, Inc. between 2001 and 2003.
- Site 4 Industrial Waste Treatment Plant (IWTP) 360 closure confirmation sampling collected by Tetra Tech EMI in 2004 under DO 33;

Please call me at (415) 222-8217 if you have any questions regarding the contents in this update or if you have procedural questions regarding the program.

Sincerely,

Douglas Davenport
Installation Coordinator
