Subject: Comments on the Draft Revision 1 Remedial Investigation Report - IR Site 20 (Oakland Inner Harbor) and IR Site 24 (Pier Area), Alameda Point, Alameda, California

Dear Mr. Macchiarella:

Upon review of the subject document we concur with proceeding to either further evaluation or a Feasibility Study at IR Site 24. Furthermore, we concur with EPA's Specific Comment #6, submitted to the Navy on April 27, 2007. EPA suggests that all open water areas exceeding ER-Ms also be included in the FS, not just the area between Outfalls J and K. Please revise the text to indicate that the areas to be addressed include the area between Outfalls J and K as well as the open water areas with exceedences of ER-Ms.

Please contact me at (510) 622-2355 or email ersimon@waterboards.ca.gov if you have any questions.

Sincerely,

Erich Simon
Project Manager
