Subj: WORK PLAN FOR ADDITIONAL SITE INVESTIGATION OF THE NAVAL AUXILIARY
LANDING FIELD FIRE FIGHTING SCHOOL, CROWS LANDING, CALIFORNIA

Enclosure (1) is our work plan for the additional site investigation proposed at the fire fighting school at Naval Auxiliary Landing Field (NALF), Crows Landing, California. The work plan is designed to fully characterize the area and extent of contamination at the site so that clean-up, if appropriate, may proceed in a timely manner. The subject plan has incorporated appropriate comments from the California Regional Water Quality Control Board (CRWQCB) and the Department of Health Service (DHS). The comments from the CRWQCB and DHS are based on the results of our initial site investigation at NALF, Crows Landing.

We would like to begin field work as soon as we receive your comments. Please provide any comments within 30 days upon receipt of this work plan. Comments should be forwarded to Commander, Western Division, Naval Facilities Engineering Command (Attn: Ms. Kathy Nakazawa, Code 1146KN, (415) 877-7502).

Sincerely,

ALEX E. DONG
Head, Environmental Restoration Section
