### ***WATER WELLS AT AND NEAR THE ADMINISTRATION AREA PLUME (IRP SITE 17), NATIONAL AERONAUTICS AND SPACE ADMINISTRATION (NASA), CROWS LANDING FLIGHT FACILITY, CROWS LANDING, STANISLAUS COUNTY***

We have reviewed the *Water Wells at and near the Administration Area Plume (IRP Site 17), NASA Crows Landing Flight Facility, Crows Landing, Stanislaus County* (Report), received 24 October 2001. The Report provides information on water wells around IRP Site 17 with a map and Navy report *Final Irrigation Practices Technical Memorandum*, dated 8 December 1993. A Board Order dated 27 September 2001, required that the Navy provide the following information related to the Report:

- A Well Survey report identifying all wells within a 0.5-mile radius of the site, and
- All public supply wells within a 1-mile radius of the site, and a physical survey of all properties within a 500-foot radius of the site.

The Board was informed by the Navy, during a telephone conversation on 24 October 2001, that a facility-wide physical water well survey was completed during the summer of 2001, and that a physical offsite water well survey has never been conducted.

### **General Comment**

The physical survey of all properties (Survey) including offsite, within a 500-foot radius of the site, is required. Please conduct the Survey and report the results, to complete this submittal. By **1 January 2002**, notify us when the Survey will be conducted.

If you have any questions please contact me at (916) 255-3050 or [bartonj@rb5s.swrcb.ca.gov](mailto:bartonj@rb5s.swrcb.ca.gov).
