From: Commanding Officer, Naval Ordnance Safety and Security Activity
To: Commanding Officer, Engineering Field Division Southwest
Subj: ESS WAIVER REQUEST FOR NASA CROWS LANDING IRP SITE 11, SITE A, AND SITE B

Ref: (a) Email NAVFACENGCOM SW Ms. L. Hornecker/NOSSA (N511) Mr. D. Murray of 6 July 2004 w/attached ESS Waiver Request
(b) NOSSAINST 8020.15, Military Munitions Response Program Oversight dtd 8 Mar 04
(c) NAVSEA OP 5, Revision 7
(d) OPNAVINST 3500.39A, Operational Risk Management

1. As requested by reference (a), the Naval Ordnance Safety and Security Activity (NOSSA) reviewed the enclosed Explosives Safety Submission (ESS) waiver request, in accordance with references (b) and (c). Based on the information presented in reference (a) the requirement for an ESS is waived.
2. NOSSA reviewed the operational risk assessment conducted in accordance with reference (d) and included with the reference (a) waiver request. We understand that this risk assessment concluded that the probability is low of finding any Munitions and Explosives of Concern (MEC) at NASA Crows Landing IRP Site 11, Site A, and Site B. Further, we understand that only small arms ammunition and inert scrap metal are expected to be recovered.
3. If MEC are discovered at the site, or explosives are placed on-site, or ground-disturbing, or intrusive activities in areas known or suspected to contain live MEC are proposed, operations must stop and cannot resume until you have submitted and received NOSSA and/or DDESB approval of an ESS.
4. The NOSSA point of contact, Mr. Douglas Murray, can be contacted at DSN 354-4355.
