Subj: Sampling and Analysis Plan Addendum  
NASA Crows Landing Flight Facility

Transmitted as the attachment is the Sampling and Analysis Plan Addendum that describes the proposed evaluation of the two chemicals – acetophenone and 2-phenyl, 2-propanol. These chemicals were identified during the characterization of groundwater that was extracted from the vicinity of a former dry well in the Administration Area Plume at the NASA Crows Landing Flight Facility. The Addendum identifies the procedures and test methods for the proposed evaluation of these chemicals.

Please do not hesitate to contact me at (619) 532-0783 if you have questions pertaining to this transmittal.

Thank you very much.
