RE: MCAS EL TORO GROUNDWATER REMEDIATION PROJECT

Dear Mr. Piszkin:

Enclosed is the monitoring report for the month of July 1992, submitted by Hadley Industries Environmental Technologies, for the Groundwater Remediation System at MCAS El Toro in Santa Ana, California.

Hadley Industries recommends a change over of carbon due to the appearance of Trichloroethene in the between stage sample analysis. Please contact Renee Moye-Hunter at 1-800-676-6808 and she will make the necessary arrangements.

Hadley Industries has been contracted by the Department of Navy to operate and maintain the system for a twelve month period, beginning in October, 1991. This contract includes monthly monitoring and inspection, as well as scheduled collection and analysis of groundwater samples.

Please feel free to call me at 1-800-345-4227 if you have any questions regarding this report.

Sincerely,  
HADLEY INDUSTRIES

Jeffrey Barnett  
Technical Assistant
