Activity, Port Hueneme CA, 93043 (Code 112N)

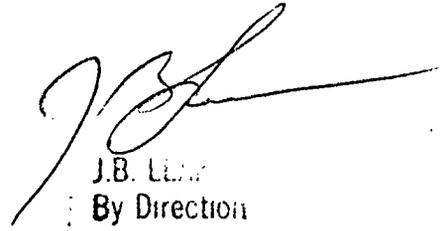

Subj: FINAL DRAFT REPORT, INITIAL ASSESSMENT STUDY OF MARINE
CORPS AIR STATION, EL TORO, CA

Ref: (a) CO, NEESA ltr 11100/1 Ser 112N/1760 dtd 27 Nov 85
(b) CG, MCAS El Toro ltr 6280 1JG-5 dtd 11 Sep 85

1. Reference (a) forwarded and requested review comments on the
subject study. Accordingly, the following is submitted:

<u>Section</u>	<u>Page</u>	<u>Comment</u>
2.2, 3.2.1	2-5, 3-1	Floride not a constituent of the chemical listed so why list or test for it?
Chapter 5	5-1	Rewrite entire section so that it addresses past practices only. Delete references to present practices.
5.3.3.1	5-15	Delete reference to EAF. They are known as Aircraft Recovery. Delete reference to washdowns. Absorbents are currently used.
5.3.3.2	5-17	Previous comment ref (a). Delete reference to the handling of waste oils from operations at Twentynine Palms or Yuma. If not deleted provide source of information for verification.
Appendix E		Delete reference to Twentynine Palms. PD-680 is Stoddard solvent and does not contain chlorinated or fluorinated compounds.

2. Reference (b) addressed the issue of including a fourth land fill in the subject study. However, the current draft does not incorporate the site as requested. Discussions with WESTNAVFACENGCOM and NEESA representatives have determined that the inclusion of the site is appropriate. Before final approval or acceptance of the study is granted, it is imperative that this issue be resolved.
