

DEPARTMENT OF TOXIC SUBSTANCES CONTROL

REGION 4

245 WEST BROADWAY, SUITE 350

LONG BEACH, CA 90802

590-4868

August 19, 1991

Mr. Larry Nuzum
Remedial Project Manager
Southwest Division
Naval Facilities Engineering Command
San Diego, California 92132-5190

Dear Mr. Nuzum:

MARINE CORPS AIR STATION EL TORO - RCRA FACILITY ASSESSMENT DRAFT
PRELIMINARY REVIEW/VISUAL SITE INSPECTION REPORT

The Department of Toxic Substances Control formerly Department of Health Services/Toxic Substances Control Program, has reviewed the above mentioned report dated July 3, 1991. The Department feels that, in general, the report is adequate and is hereby approved conditioned on the following recommendations being considered.

The Department feels that it would be beneficial to include Material Safety Data Sheets or any other kind of documents that provide more information about chemical composition and toxicity of the different wastes or substances handled at some of the areas of concern. Examples of these are: turbine cleaner, photodeveloper, tennant (sic) detergent, component "A", Stoddard solvent, and PD 680. This may be done at the next phase of the RCRA Facility Assessment.

If you have any questions, please contact Mr. Manny Alonzo at (213) 590-4904.

Sincerely,

A handwritten signature in black ink, appearing to read "John E. Scandura".

John E. Scandura, Chief
Site Mitigation Branch
