Dear Mr. Gould:

The Department of Toxic Substances Control (DTSC) completed the review of the subject report (Progress Report), dated January 2000. The Progress Report describes the remediation activities of the soil vapor extraction (SVE) system through the end of December 1999.

DTSC welcomes your use of the Pneulog technology. We are looking forward to reviewing the results. Thank you for the opportunity to review and comment on the various on-going activities, and to work cooperatively towards the eventual cleanup of the site.
