### REVIEW OF FINAL GROUNDWATER MONITORING REPORT, ROUND 8, FORMER MARINE CORPS AIR STATION, EL TORO

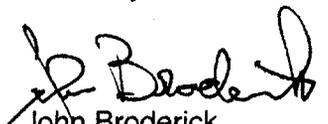

Dear Mr. Gould:

We have completed our review of the Final Groundwater Monitoring Report, October-November 1998, Round 8 Sampling, dated May 24, 2000, which we received on June 6, 2000. We have the following comments on this report.

1. Your tardiness in submitting this 1998 summary report to the regulatory agencies is not in the best interest of the BCT or the LRA. Data should be provided to us in a timely manner.
2. The 1998 report appears to address only the VOC source area (Site 24) and four landfill sites, and includes the work of a single contractor. All of the groundwater analytical data associated with sites at El Toro (including IRP and petroleum sites) which were sampled during the monitoring period should be presented in one report.
3. Water level data should be presented in a map form with isopleth contours for the entire groundwater surface, and for all zones below the groundwater surface where there are sufficient data points to allow interpretation.

For any questions on this review or related matters, please call me at (909) 782-4498.

Sincerely,

  
John Broderick  
SLIC/DoD/AGT Section
