Project # - El Toro RAB / The Review Committee
re: RAB Report

Main Agenda Issues since 29 March 00:

Minutes available

Unit A.

Final ROD, Sites 2&17

The Subcommittee requested that the DoN make a presentation at the May 31 RAB meeting providing the background, history, and basis of the determination of the Site 2 Landfill boundaries (see attached).

Response to Comments offered new data from 1996 to support the DoN position (attached).

Unit B.

* BCP/2000 Review -

The Irvine Chlorinated Solvents Report will go to the RAB, response and comments from Agencies and DoN are anticipated at the 31 May meeting.

Unit C.

* EOD/Site 1 -

Shared assessment of Earth Tech Report on Site 1 that is consistent with enriched Uranium presence. Recalculated Table 4-1 to include missing data (attached).

Unit D.

* UST Closure Status -

Will seek status from P. Hannon, including an estimate of what percent are fully closed with final reports signed off.
