DATE: February 23, 1994

SUBJECT: 1 March 1994 Soil Gas Technical Exchange Meeting

PROJECT: MCAS El Toro Remedial Investigation

PRE-MEETING ACTIVITIES

In order to maximize group input, prior to the meeting, consider the following:

- Which potential source areas are of greatest concern?
- What is the optimum grid spacing for various source types?
 - above groundwater contamination
 - various SWMU sites with demonstrated VOC soil contamination
 - along the abandoned industrial sewer lines
 - refurbishing operations
 - abandoned wells
 - vehicle maintenance meetings
- Sample depths

TITLE: SOIL GAS TECHNICAL EXCHANGE
 MEETING
