Subject: Request for Direct Transfer of Data to OCWD's Consultant

Dear Mr. <sup>John</sup> Dolegowski:

As the hydrogeologic consultant to the Orange County Water District for the construction and pump testing of the Irvine Desalter production wells, the firm of Geotechnical Consultants, Inc. (GTC) is tasked with evaluating all available aquifer test data produced during the testing, including data collected by CH2M Hill from monitoring wells owned by the U.S. Marine Corps. For this reason I hereby request your permission to authorize your staff to transmit all pertinent piezometric monitoring information directly to either Mr. Chuck Kendall or Ms. Yen-Vy Van at GTC for their analyses on behalf of OCWD. Likewise, I have instructed GTC staff to provide the aquifer testing data directly to CH2M Hill staff, as necessary to perform its analyses.

I would like to compare results of our respective analyses before finalization at some future date. If you have any questions, please call me at (714) 378-3260.

Sincerely,

Roy L. Herndon  
Manager, Hydrogeology Department

cc: Mr. Chuck Kendall, GTC
