## MEMORANDUM

**TO:** Joseph Joyce  
**FROM:** Karnig Ohannessian *Y. Ohannessian*  
**DATE:** June 8, 1995  
**SUBJECT:** April 27, 1995 Meeting with Juan Jimenez of DTSC

---

As you requested, I am outlining the subjects Juan Jimenez and I talked about when I met him on April 27, 1995.

I had contacted Juan by telephone prior to April 27 and had asked him where the RAB meeting of April 27 was going to be held, because I had never been to those meetings. He suggested that we meet at the Environmental trailer at MCAS El Toro and then go to the RAB meeting together. When I arrived, I waited in Juan's office in the trailer while you and Juan talked about various BCT issues that I did not follow, since your discussion was not about the EE/CAs, which I was working on.

After your meeting, I followed Juan in my car. Juan drove to CH2MHill in his car to either drop something off or pick something up. There I saw Andy Pyszkin, who was preparing for his presentation at the RAB meeting. Juan then drove to a restaurant, and I followed him there. We had dinner there and talked about the following topics:

- a business venture that Juan was interested in concerning some sort of shipping invention that one of his business partners had devised,
- the relative culinary merits of various fish (we were at a seafood restaurant),
- good vacation spots to go to for a honeymoon (I'm getting married in September, and I asked Juan's opinion on where I should go),
- the pros and cons of Las Vegas (I don't like Las Vegas and Juan does),
- the condition of the real estate market in the Los Angeles area (I'm going to be buying a house soon because I am getting married), and
- probably other dinner conversation topics too insignificant to remember.

After dinner, I followed Juan to the RAB meeting. Juan first drove to City Hall, but when we got out of our cars, I reminded him that the meeting that day was to take place at the Irvine Ranch Water District. So we got back in our cars and I followed Juan to the Water District. We arrived just in time and took our seats. After the meeting, Juan introduced me to some of the RAB members. I then went home.
