Subject: Information Repository - Update and Maintenance

On September 17, 1996, for CTO-0063B, Subtask 2.9, quarterly updating and maintenance of the MCAS Information Repository at the Heritage Park Regional Library in Irvine was performed. Due to library space constraints (3 shelves equivalent to nine feet of shelf space), repository holdings were significantly reduced. The Information Repository contains the latest and most relevant documents and reports regarding the Installation Restoration Program at MCAS El Toro. An updated index of this repository collection was produced following this effort. That listing is enclosed here and will be placed at the library on September 25 prior to the Restoration Advisory Board meeting scheduled for that evening.

If you have any questions regarding development and maintenance of the Information Repository collection, please contact Bob Coleman at (619) 687-8772, or I can be reached at (415) 768-7790.

Sincerely,

Amy Schwartz
