Dear Mr. Elsberry:

Your request to temporarily stockpile dirt excavated from an adjacent non-government project regrettably cannot be accommodated. The area requested is a contaminated site, and no other sites are available.

The dirt that you have stockpiled on government property must be removed within 30 days of receipt of this letter, except for a base of one foot in height. The base is required to protect the integrity of the contaminated soils which lie beneath your dirt. Inspection by a government representative will be required.

Please contact Diane Arnett, Real Estate Specialist at (714)726-2830 or Chrisa Mitchell, Environmental Engineer, at (714) 726-3386 with a schedule for removal of deposited dirt.

Sincerely,

 D. L. KINNEY  
 Deputy Assistant Chief of Staff,  
 Installations  
 By direction of the  
 Commanding General
