Dear Andy:

SUBJECT: AGUA CHINON CHANNEL ACROSS AT&SF, CIP 2276

I have contacted Camp, Dresser & McKee, Inc. (CDM) regarding their report for the subject project dated December 3, 1991. Per the discussion at the meeting on January 29, 1992, of the signatories to the Federal Facilities Agreement, I told Ron Neafus of CDM that "data validation" will be done on that report. He and his subconsultant, the lab who did the actual testing, are perfectly aware of what is needed and will cooperate fully with you on this.

Ron Neafus' number at CDM is (714) 752-5452, and he knows that you will be calling him.

If you need any further assistance from me in this matter, please do not hesitate to call at (714) 724-7556.

Sincerely,

*K. Shawn Thompson*
