Gentlemen:

With respect to the requirements of Board Order No. 93-16, United States Marine Corps Air Station El Toro, and specifically with Item B.3, (Reports, Plans Provision C.3), the Storm Water Pollution Prevention Plan, due September 5, 1993, we would like to advise that the SWPPP has not been completed at this time.

We will continue to expedite matters, but due to protracted contracting procedures during initial implementation, the best estimate for completion of the SWPPP's for El Toro and Tustin will be during the latter part of December 1993.

Should you require any further information, please contact Richard Duffin, Environmental Engineer, at (714) 726-3701).

Sincerely,

A handwritten signature in black ink, appearing to read "L. G. Serafini".
