

6/9/98

- PUBLIC NOTICE -
MARINE CORPS AIR STATION EL TORO

**INSTALLATION RESTORATION PROGRAM
PROPOSED PLAN FOR CLOSURE OF
FOUR INACTIVE STATION LANDFILLS
PRESENTATION AND DISCUSSION MEETING
THURSDAY, JUNE 18, 1998
Irvine City Hall, Conference & Training Center
One Civic Center Plaza, Irvine, California
from 4:30 to 8:30 p.m.**

The public is invited to participate in Marine Corps Air Station (MCAS) El Toro's public meeting on the Proposed Plan for Closure of Four Inactive Station Landfills at Installation Restoration Program Sites 2, 3, 5, and 17. The public will have the opportunity to provide oral written comments on the investigation results and closure evaluations. Marine Corps representatives responsible for the investigation results and the evaluations will be available to answer your questions.

The Marine Corps' preferred remedy for each landfill site includes installing a 4-foot thick single-layer soil cap or cover on top of each landfill. The cover would include vegetation and be designed and engineered to meet the specific characteristics of each landfill site for cap stability and to control erosion. Non-engineered actions or "institutional controls" would also be taken to limit certain activities at the sites to further protect human health and the environment. Long-term environmental monitoring of the landfills would also be conducted for approximately 30 years to assess each landfill's performance in containing waste materials within its boundaries.

To receive further information about this meeting, please contact Mr. Joyce, at (949) 726-3470 or 726-2840 or the following individuals:

Capt. Robert McCarthy, BRAC Public Affairs Officer (949) 726-3853
Mr. Andrew Bain, Community Involvement Coordinator, U.S. EPA (800) 231-3075
Ms. Marsha Mingay, Public Participation Specialist, Cal EPA - DTSC
