**Attachments:**

Dear Marc:

EPA has reviewed the Referenced Fact Sheet for IRP Sites 3 and 5 and we have no further comments as of this date.

Please contact me if you have questions.

Subject FW: Final Review of Fact Sheet for IRP Site 3 and 5, MCAS El Toro

Mary-

Per the BCT conference call this morning where you indicated that you had no comments on the final version of the fact sheet for IRP Sites 3 and 5, can you please provide an e-mail with a sentence confirming EPA has no further comments on the Final Fact Sheet?

Thanks-

Marc P. Smits PE

Subject: Final Review of Fact Sheet for IRP Site 3 and 5, MCAS El Toro

BCTeammates-

Attached is the Final Fact Sheet for your final review prior to sending the fact sheet to those on the MCAS El Toro mailing list. Some minor changes have been made to the fact sheet since it was previously approved by all three regulatory agencies. Jim Callian has been listed as the BEC, a section entitled "Implementation of Sustainability Concepts" has been added, the Landfill Gas section was shortened (to fit the new section), and dates have been changed to reflect current conditions. These sections/changes have been highlighted for your convenience in identifying the text requiring final review. Please look over these text revisions and provide changes, if any, or your approval by COB Tuesday, 11 August 2009. The Navy

would like to issue the Final Fact Sheet next week to ensure the information is sent to the public a least a couple weeks prior to beginning construction activities. Thank you in advance for your review.

Thanks-
