Irvine, California 92619-1718

### SUMMARY REPORT FOR AERIAL PHOTOGRAPH ANOMALY (APHO) 4, MARINE CORPS AIR STATION (MCAS) EI TORO

Dear Mr. Gould:

The Department of Toxic Substances Control (DTSC) has reviewed the above report dated July 28, 1999. The Report presents the results of the record search activities and visual inspections of the APHO 4 (Also known as Science Applications International Corporation (SAIC) 22). The anomaly is described as probable stains in the Tank Farm 4 vicinity and was identified on an aerial photograph dated 1946.

The report recommends a no further action status for APHO 4 based on evaluation of historical aerial photographs, Station maps and plans, Station property records, environmental program management plans, the results of previous environmental restoration program investigations, and visual site inspections conducted in July 1999.

DTSC concurs with the proposed no further action status designation for the APHO 4. The no further action status can be documented in the next BRAC Cleanup Plan updated. If you have any questions, please contact me at (714) 484-5418.

Sincerely,

Tayseer Mahmoud  
Remedial Project Manager  
Southern California Operations  
Office of Military Facilities
