Re: EPA review and comment of the Draft Radiological Removal Action, Action Memorandum, Hunters Point Shipyard, San Francisco, California, dated June 26, 2000

Dear Mr. Mach:

EPA has completed its review of the above referenced document. As I noted in an email to you earlier today, EPA is pleased that the Navy intends to remove the radioactive contamination to decay corrected Preliminary Remediation Goal (PRG) levels in the areas addressed in the document. EPA has no other comments on this document.

If you have any questions, please contact me at 415-744-2409 or Mr. Steve Dean at 415-744-2391.

Sincerely,
