Ser 1146/NP/RMOCB RESPONSE
24 FEB 1988

Mr. Steve Ritchie
California Regional Water
Quality Control Board
1111 Jackson Street
Oakland, CA 94607

Dear Mr. Ritchie:

This letter presents confirmation of the January 25, 1988 telephone conversation between you and Mr. James Davies of our consultant, Harding Lawson Associates (HLA), regarding compliance with the Solid Waste Assessment Test (SWAT) requirements for the Industrial Landfill at Naval Station, Treasure Island, Hunters Point Annex (HPA).

Based on the telephone conversation described above, the following was agreed upon:

1. The Sampling Plan for the ongoing Remedial Investigation (RI) at HPA for the Industrial Landfill will satisfy the requirements for a SWAT proposal and, as such, a separate proposal will not be required. The Industrial Landfill Sampling Plan will be presented in the "Work Plan Volume 2A, Sampling Plan for Group I Sites, Remedial Investigation/Feasibility Study, Naval Station, Treasure Island, Hunters Point Annex, San Francisco, California". Separate draft copies of this document will be provided to you and Mr. Lester Feldman of your office for review in the near future. Your comments on the document would be beneficial and appreciated.
2. A draft of the comprehensive report on the RI will be prepared and submitted to you that will exceed the requirements of the SWAT report with the exception noted in Item 3 below. Therefore, a separate SWAT report will not be required.
3. The RI report will be submitted to you within the next six to nine months. This report will not include one year's groundwater monitoring results in the RI report. However, the groundwater monitoring will be performed and the data submitted to you as an addendum to the RI report. This will fulfill the requirements of the SWAT report.

Any questions regarding this matter can be directed to Commander, Western Division, Naval Facilities Engineering Command (Attn: Mr. Alex E. Dong, Code 1146, (415) 877-7502).

Sincerely,

P. W. DRENNON
CAPTAIN, CEC USN
COMMANDER
