Re: (1) Draft Supplement to Air Sampling Plan

1. Enclosure (1) is the draft Supplement to the Air Sampling Plan for the Remedial Investigation and Feasibility Study at Naval Station, Treasure Island, Hunters Point Annex. The supplement is submitted for your review and comment and is to satisfy the substantive requirements of California Assembly Bill 3974 (Calderon) as outlined in the Hazardous Waste Disposal Site Testing Guidelines (California Air Resources Board, January 1987).

2. Enclosure (1) will serve as a Solid Waste Air Quality Assessment Test (SWAQAT) proposal. A report based on the sampling results, in accordance with enclosure (1), will be prepared and submitted to the Bay Area Air Quality Management District (BAAQMD) as the SWAQAT report.

3. We request that you review enclosure (1) and provide your comments to Mr. Tom Brennan of the BAAQMD within 7 days of receipt of this letter. During several phone conversations between Mr. Brennan and Mr. Scott Lutz of the BAAQMD and Ms. Carol Lee of our office, it was agreed that the BAAQMD would take the lead to consolidate all regulatory agency comments and provide these to the Navy within 10 days after receipt of this letter. This short review period has been requested by the BAAQMD to satisfy the Calderon requirement. Questions regarding this matter can be directed to Commander, Western Division, Naval Facilities Engineering Command (Attn: Mr. Alex E. Dong, Code 1146, Autovon 859-7505 or Commercial (415) 977-7502).
