CONDITIONAL APPROVAL OF FEASIBILITY STUDY PLAN

Dear Mr. Tung:

Based on our review of the draft Feasibility Study Plan for Hunters Point Annex, we hereby grant conditional approval of the FS Plan. Final approval of the FS plan will be contingent on adequately addressing the following deficiencies:

1. Section 4 of the FS Plan only discusses developing "site-specific" remedial alternatives. This FS Plan should address the possibility of large-scale (possibly facility-wide) remedial alternatives, as well as the regional impacts of the "site-specific" alternatives.
2. Refer to Table 1. Since there is currently no data to indicate that groundwater contamination is not a problem at several IR sites, the following IR sites should also include Remedial Technology Category "C" (leachate and groundwater controls): IR-4, IR-5, IR-7, IR-9 and IR-10.

Please revise this document and submit the final draft by March 8, 1989.

If you have any further questions, please contact William Owen of my staff at (415) 540-2592.

Sincerely,

A handwritten signature in black ink that reads "Ric Notini". The signature is written in a cursive style.

Ric Notini, Chief  
Site Mitigation Unit
